Election/Restriction

1. Election to one of the following inventions is require under 35 U.S.C 121:

I. Claims 5-13 and 32-56, drawn to a still image compression, classified in class 382, subclass 232.

II. Claims 57-59 and 62, drawn to target recognition/detection, classified in class 382, subclass 103.

III. Claims 60-61, drawn to image enhancement , classified in class 382, subclass 254.

2. The inventions are distinct from each other because of the following reasons:

Inventions I, II, and III are related as subcombination disclosed as usable together in a single combination. The subcombination are distinct fro each other if they are shown to be separately usable. In the instant case, invention group I has separate utility such as compressing photographic image, invention group II has separate utility such as tracking unidentified target and invention group III has separate utility such as enhancing resolution of photographic image.

3. Because these inventions are distinct for the reasons given above and have acquired separate status in the art shown by classification and recognized divergent subject matter, restriction for the examination purpose as indicated is proper.

4. Applicant is advised that the response to this requirement to be complete must include an election to be examined even thogh the requirement be traversed.
